TESTIMONIES

“I actually invited a friend (who had not been to church in years) to group, because I knew she would feel comfortable. This was her first experience with Journey, and she loved it! So much so, that she came to service the following Sunday and gave her life to Christ. This to me speaks volumes about the value of community experienced through Journey Groups.”

“The best part of meeting every week were the friendships formed, it really does become something you look forward to every week. Through it all I absolutely felt like God was teaching me about loving his children regardless of where they are in their walk. We loved sharing how God was moving in our lives and it was just the most amazing experience to be able to share the last couple of weeks with them.”

“I am extremely blessed to be a part of a group. They have helped me see God in a new light and have a better understanding of God. I have grown a lot spiritually and realize I am extremely blessed.”
